

Public Workshop on
Impacts of Long-term Climate Changes on Regional Modeling
August 15, 2006

Agenda

NOTE: If you have any questions or concerns regarding the Workshop agenda, please contact Pattie Fulton at 561-682-6154 or pfulton@sfwmd.gov.

Please submit speaker cards before 1:00 p.m. if you wish to make comments during the afternoon public comment period.

- 9:00-9:15: Welcome, Introductions (Facilitator)
- 9:15-10:00: Current Use of Long-Term Climate Change Data in SFWMD Regional Modeling (J. Obeysekera)
- 10:00-10:45: Summary Report from Five Independent Reviewers (R. Bras)
- 10:45-11:00: break
- 11:00-12:00: Scheduled Presentations from Other Agencies and Members of the Public:
- Kevin Henderson, St. Lucie River Initiative, "Relationships between Climatic Cycles, Rainfall, and Lake Okeechobee Water Levels"
 - Dr. Paul Gray, Audobon Society, "Influence of the AMO on interpreting results from the 36-year period of record (1965-2000)"
 - Dr. Alison Adams and Dr. Tirusew Asefa, Tampa Bay Water, "Multi-Time Scale Rainfall Forecasting/Simulation for Tampa Bay Water"
- <lunch break>
- 1:00-2:00: Scheduled Presentations from Other Agencies and Members of the Public
- Bill Osburn, SJRWMD, "Geostatistically Derived Realistic Rainfall Scenarios for Transient Groundwater Modeling from Long-term Climatic Models"
 - Dr. Marty Kelly, SWFWMD Ecol. Eval. Section, "Florida River flow patterns and the AMO"
 - Dr. Frank Marks, NOAA/AOML/Hurricane Research Divn, Miami, "Contribution of tropical cyclones to the global tropical rainfall"
- 2:00-2:30: Public Comment Period (*submit speaker cards by 1:00*)
- 2:30-3:00: Synopsis from Dr. Bras
- 3:00-3:30: SFWMD Continuing Efforts
- recommendations to Governing Board based on input from this workshop (tentatively scheduled for September board meeting)
 - [South Florida Environmental Report](#) and Peer Review participation
 - Maintenance of [web page](#) on this topic
 - Followup based on Governing Board direction (beginning FY07)
- 3:30-4:00: Open Discussion
